Digitally transforming businesses for the better

## Pega Graduate – London, UK

This is an opportunity for IT Graduates located in and around London to join our growing team of Pega developers. The ideal candidate will be willing to learn to develop high-quality applications. They will also be responsible for designing and implementing testable and scalable code.

Training and mentorship will be provided

- You will work on a Team with a Senior developer (CSSA)
- The CSSA will assign you work
- You will receive support and guidance
- We will provide Certified System Architect exam funding

Responsibilities

- Develop software and web applications
- Analyse and maintain existing software applications
- Design highly scalable, testable code
- Discover and fix programming bugs

Requirements

- Eagerness to learn
- Enjoy working as part of a team
- Exposure to a variety of technologies, including, but not limited to, WebSphere or WebLogic, J2EE (JSP, Servlets, EJB, XML, Java), .NET, Oracle, DB2, and MS/SQL. With specific expertise in some of the above (recommended, not essential)

What's in it for you?

- The opportunity to work with some of the best pega developers in the market
- Hybrid working
- 28 days holiday + Public Holidays
- Private pension plan
- Competitive salary + annual bonus
- Immediate uplift in salary when achieving CSA exam and CSSA exam.
- More information provided during the interview process.
